The main purpose of writing the book ATTITUDE is to help manage daily lives because it connects with all age groups, irrespective of their gender and line of activity. Start with self-love. As a result, the kindness created can also be shared with others. This guide implements a journey with an innovative and dynamic approach. Discipline and preparation will manifest zealous enthusiasm because it takes kindness to nourish, thrive and encourage human relations. Overall, change, gratitude, patience and emotional intelligence will be the grand leaders. Inspire, empower, motivate and elevate your journey. I proudly offer gratitude towards Marlene Foster, an aspiring author and business protection coach, for her belief and inspiration. She was a great support for me during each stage of my journey, while writing the books, ATTITUDE and WISDOM. I've thought about writing with her support and guidance, my dream became a reality. Her innovative mind set and desire to see me write a book has finally come to fruition. Envisioning and empowering your goal is her motto. I respectfully pray for the Almighty to bless her with strength and good health.

# Review

Bijibilla Rama Rao's book, Attitude, focuses on various ways to manage life's journey. One of the best ways to monitor a smooth thought process would be emotional intelligence. Since the pandemic, mental health issues have been on the rise. The author relates to burnout and other mental challenges. Hopefully, readers will soon begin to feel that they're not alone. Battling for employment opportunities caused employees to stress over caring for families while employers sought qualified replacements. The book helps you to understand how change can be unsettling and sometimes a good fit. I appreciate the motivational tone being shared along with the empowering benefits of honesty, gratitude, success and positivity. The reading may be longer than some other nonfiction books but the content is highly effective and most beneficial for today's remote and hybrid professionals. I would recommend the book, Attitude written by Bijibilla Rama Rao. The content will encourage innovative and transformational steps that will promote and enrich positivity for a lifetime.
